Zentangle® and Quilting All Day Workshop for Guilds

Zentangle is a method of drawing beautiful patterns with easy structured steps. Anyone can create Zentangle art! People who are sure they are not “creative, artistic or talented” are always delighted and surprised to see what they *can* create. Zentangle is a perfect match for quilters - it is a complementary creative outlet. Quilters find that drawing patterns sparks creative energy that is then passed along to their quilting projects. In this program you will learn about Zentangle, draw tangle patterns, and see beautiful Zentangle art and Zentangle inspired quilting. You may even find the answer to the question: which came first... the “feather” or the “flux”!

Choose one:

Zentangle Fabric and Ink

Using official Zentangle tiles, Pigma Micron pens and pencil we will learn eight Zentangle patterns and create two Zentangle tiles. Then the fun really begins! Each student will receive a canvas bag and special pens to draw with. Using stencils I will show you several ways to apply your tangle patterns to the canvas bag in creative ways. By the end of the day you will have a special tangled canvas bag!

Zentangle Quilting

Using official Zentangle tiles, Pigma Micron pens and pencil we will learn eight Zentangle patterns and create two Zentangle tiles. Then the fun really begins! Now we go to the machine! First we will draw patterns onto fabric and then you will learn how to quilt tangle patterns using your domestic sewing machine! You will leave with a beautiful mini quilt!
